DON'T ALLOW A CONTRACTOR TO TAKE YOUR INSURANCE SETTLEMENT! BECAUSE THAT'S WHAT WILL HAPPEN!

DON'T ALLOW YOUR INSURANCE COMPANY TO DETERMINE HOW MUCH OF THEIR MONEY THEY FEEL LIKE GIVING YOU.

WE WILL MAKE SURE YOU RECEIVE A FAIR SETTLEMENT. WE WILL ARRANGE TEMPORARY RESIDENCE UNTIL YOU REBUILD YOUR HOME AND YOUR LIFE.

You need a claims expert, not a carpenter to manage your claim.

How much do you know about this contractor? Read the fine print in the contract they want you to sign. Most contracts mandate that the settlement checks go to the contractor and not you! Think about that...There will be no competitive bidding process. How do you know what you're getting?

Finding temporary housing, clothes to wear, making life manageable for everyone affected by the loss requires attention that many people can't handle in the aftermath of a disaster.

You may not be aware that as a homeowner it is YOUR responsibility to present a complete building claim to your insurance carrier. A complete inventory of personal property also has to be completed and filed. Any detail not included adds up to be a substantial amount of money you will not receive.

Keep in mind...

Your claim will be one of thousands your insurance company receives. An insurance adjuster will be sent to inspect and evaluate your claim. Then your insurance company will make you an offer, which you can accept or try to negotiate for a better settlement. At that point you will be required to submit a claim. Preparing and filing a claim consumes a lot of time and energy, and it is not a routine procedure for most people. Mistakes are often made, which can lead to additional financial loss for the homeowner.

The Public's Adjuster LLC operates independently and represents YOUR interests as the policyholder.

We work to ensure that the benefits paid accurately reflect the damage sustained.

Timing...

Your insurance company is anxious to settle your claim - and so are you - but do not rush! Favorable settlements do not happen overnight. Establishing the value of your claim takes technical and insurance policy expertise to ensure a fair and favorable settlement. We will take care of all the details to make this difficult time less stressful for you. We will help you coordinate clean-up, repair, and replacement, so you can go back to the way your life was before your loss.
